

McProper + McProper Plus

Professional trigger sprayers for spraying and foaming

McProper

Tank 0.5 litres, impact resistant, transparent white

- Visible fluid level
- Conical design for extra stability
- For safe handling and accurate application

Measurement scale 100 ml

- For accurate filling and mixing

Nozzle adjustable & closable

- For spraying mist and jet
- Avoids flow out of chemicals during transport (in vehicles, storage rooms etc.)

Piston pressure up to 15 bar

- For a fine and economical spray
- For a powerful long reaching jet
- For better performances and results

Ergonomic, robust spray head with wide hand support

- Easy pump operation for fatigue-free working conditions
- Can be operated by three fingers
- Much longer durability

Print blue, red, green or yellow

- For different applications (e.g. red for acids, blue for caustic solutions)

Frequent reusable and refillable device

- Long life
- Preserves our resources and environment (no unnecessarily waste)

Typical applications

Moistening, disinfecting, degreasing, maintaining, cleaning – food areas, kitchen equipment, sanitary installations, glass, furniture, solariums, fitness centres, workshops, vehicles for car mechanics, craftsmen, cleaning persons etc.

McProper Plus with foam head

Professional trigger sprayers

The decision to use robust, reusable trigger sprayers has multiple advantages: The user has no time-consuming interruptions due to leaking or clogged devices. The powerful spray or foam head is durable (a multiple number of disposable sprayers) and allows a fatigue-free operation with extended performances for excellent results. Because of its long-life, fewer renewable resources will be consumed.
